

Hvordan jobber kommunesektoren med bærekraftsmålene?

Anne Romsaas, KS

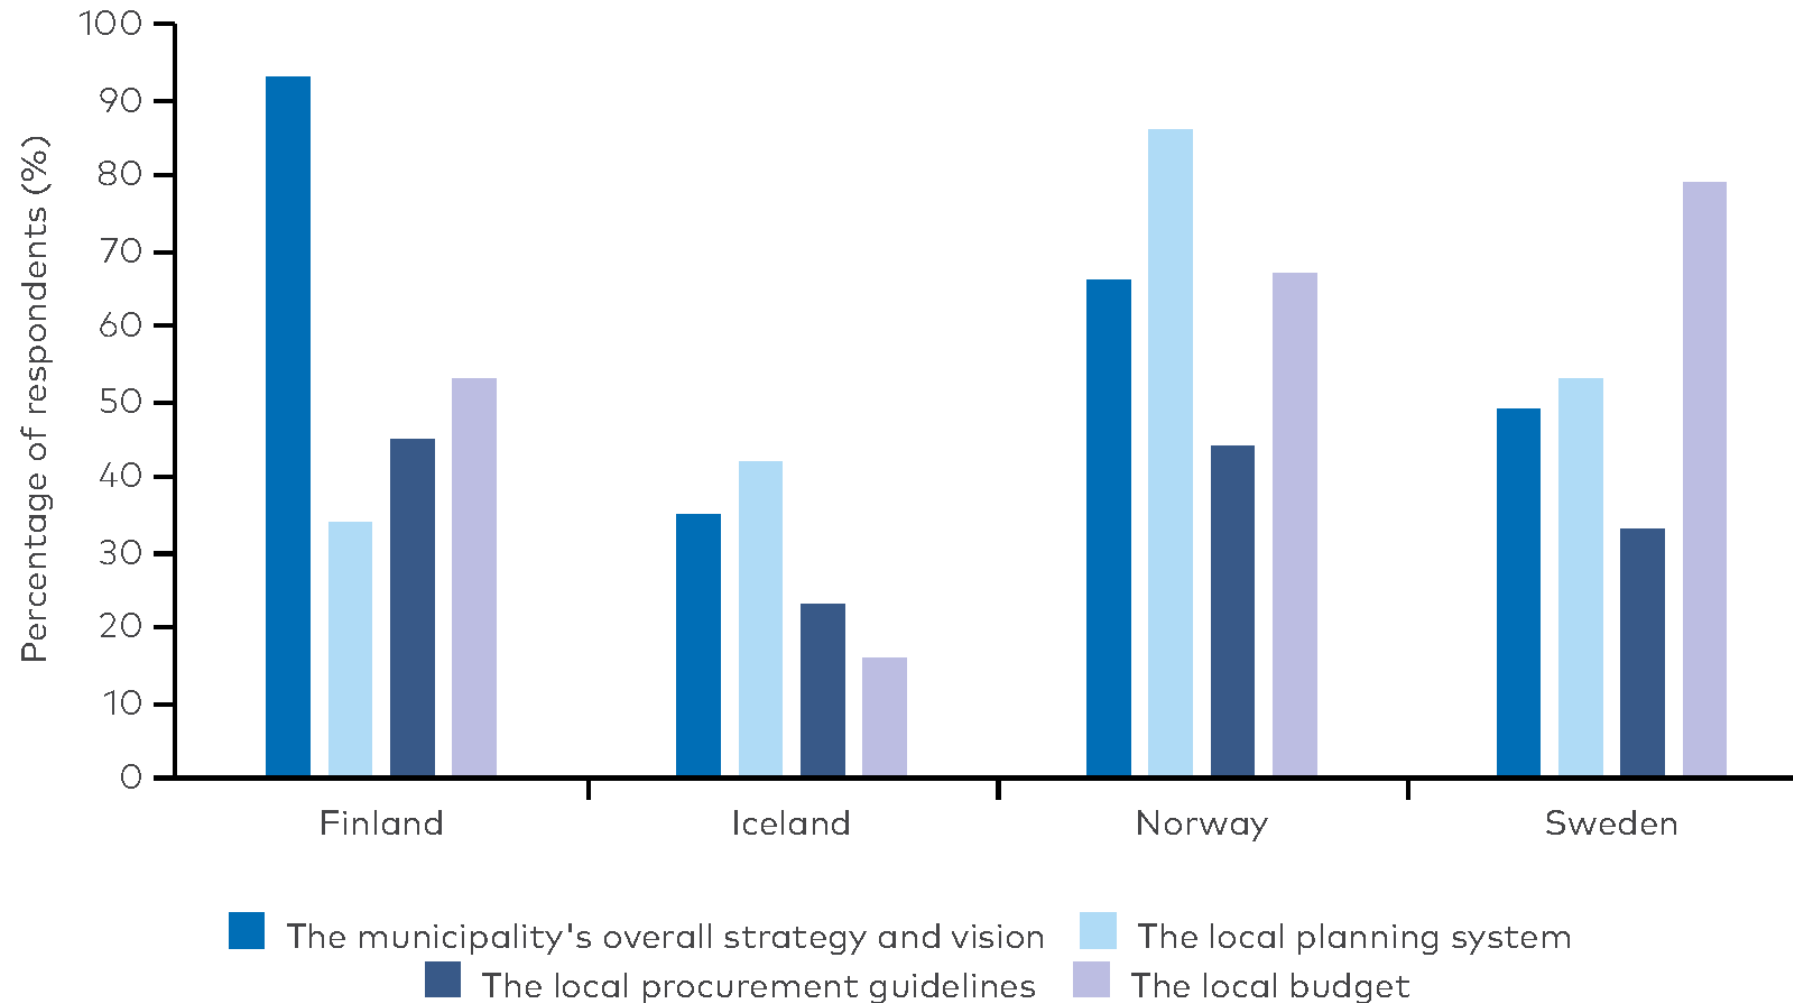

How far has your municipality come in working with the 2030 Agenda?

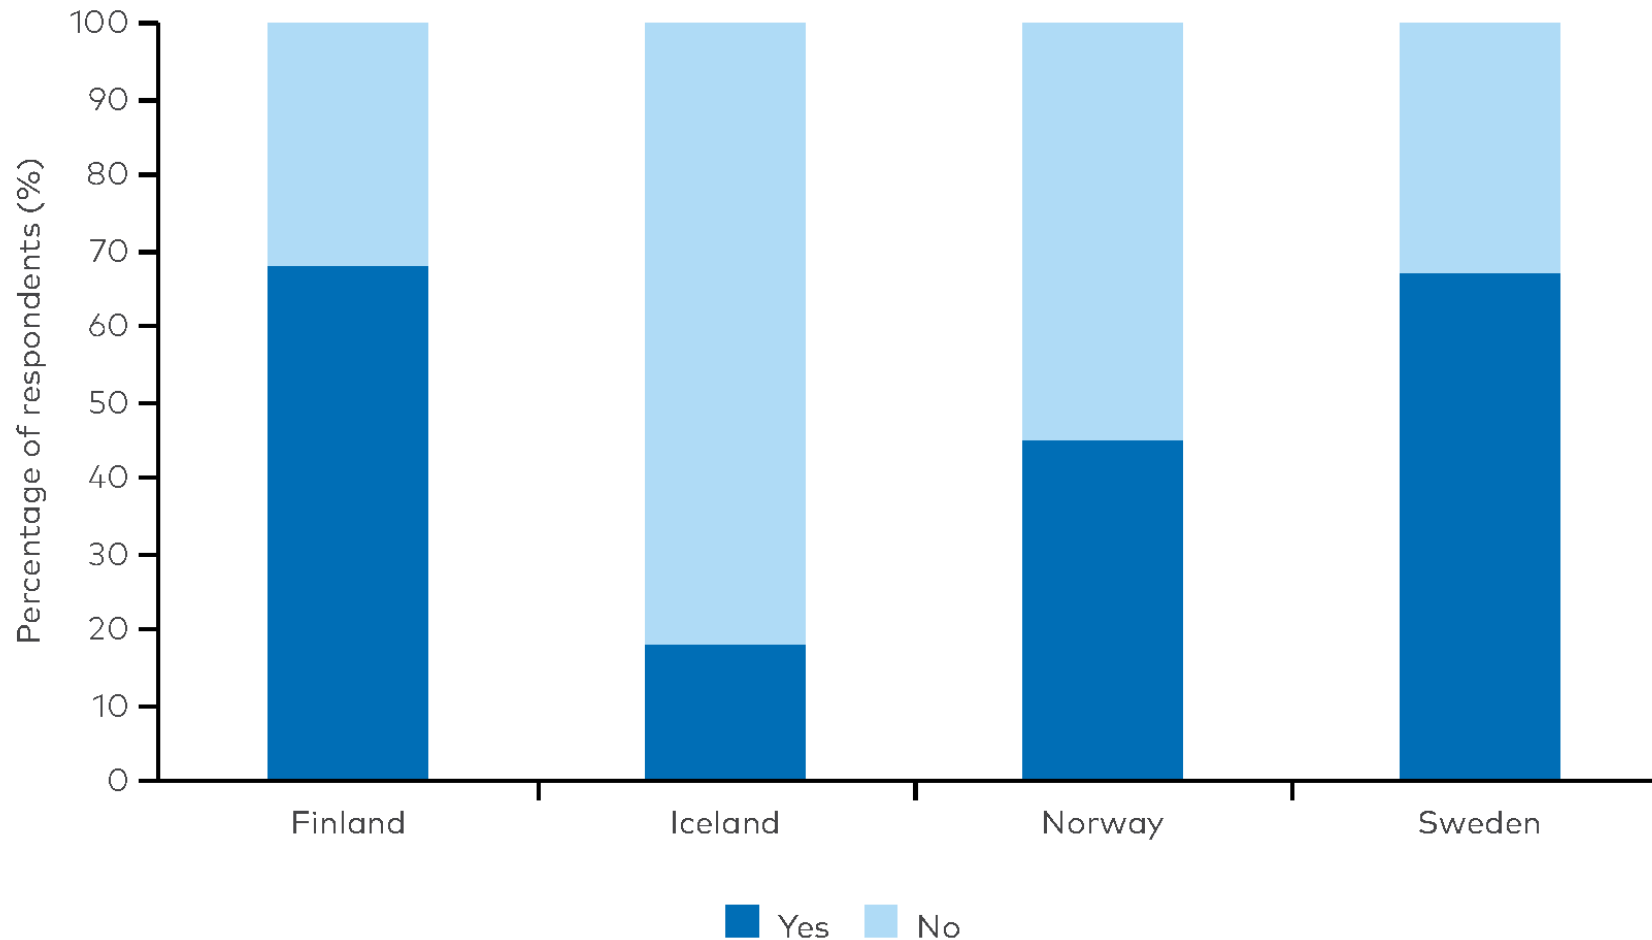

- We have not (yet) started to work with the 2030 Agenda
- We have just started the work
- We are working on it
- We consider our municipality a frontrunner in the work with the 2030 Agenda

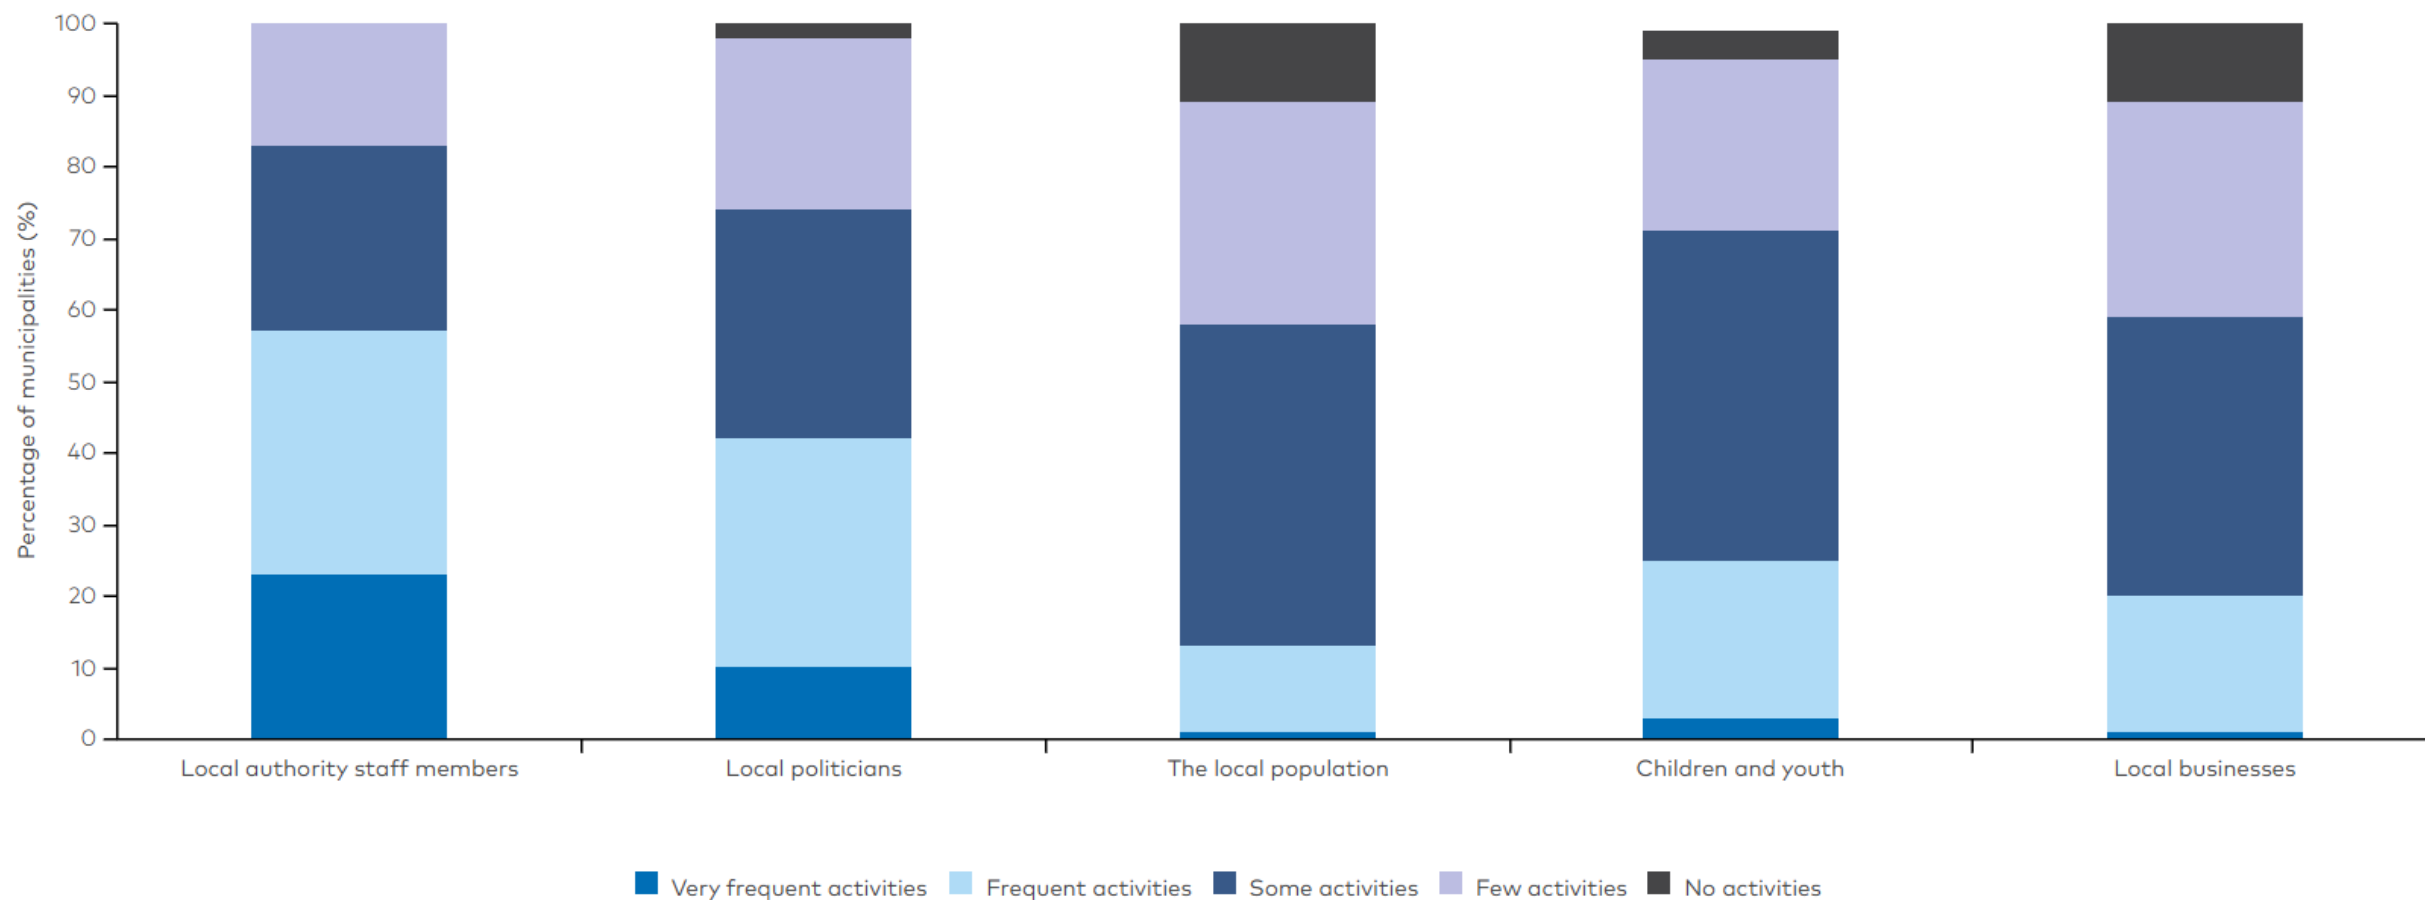

Into which of the following steering documents have you integrated the Agenda 2030?

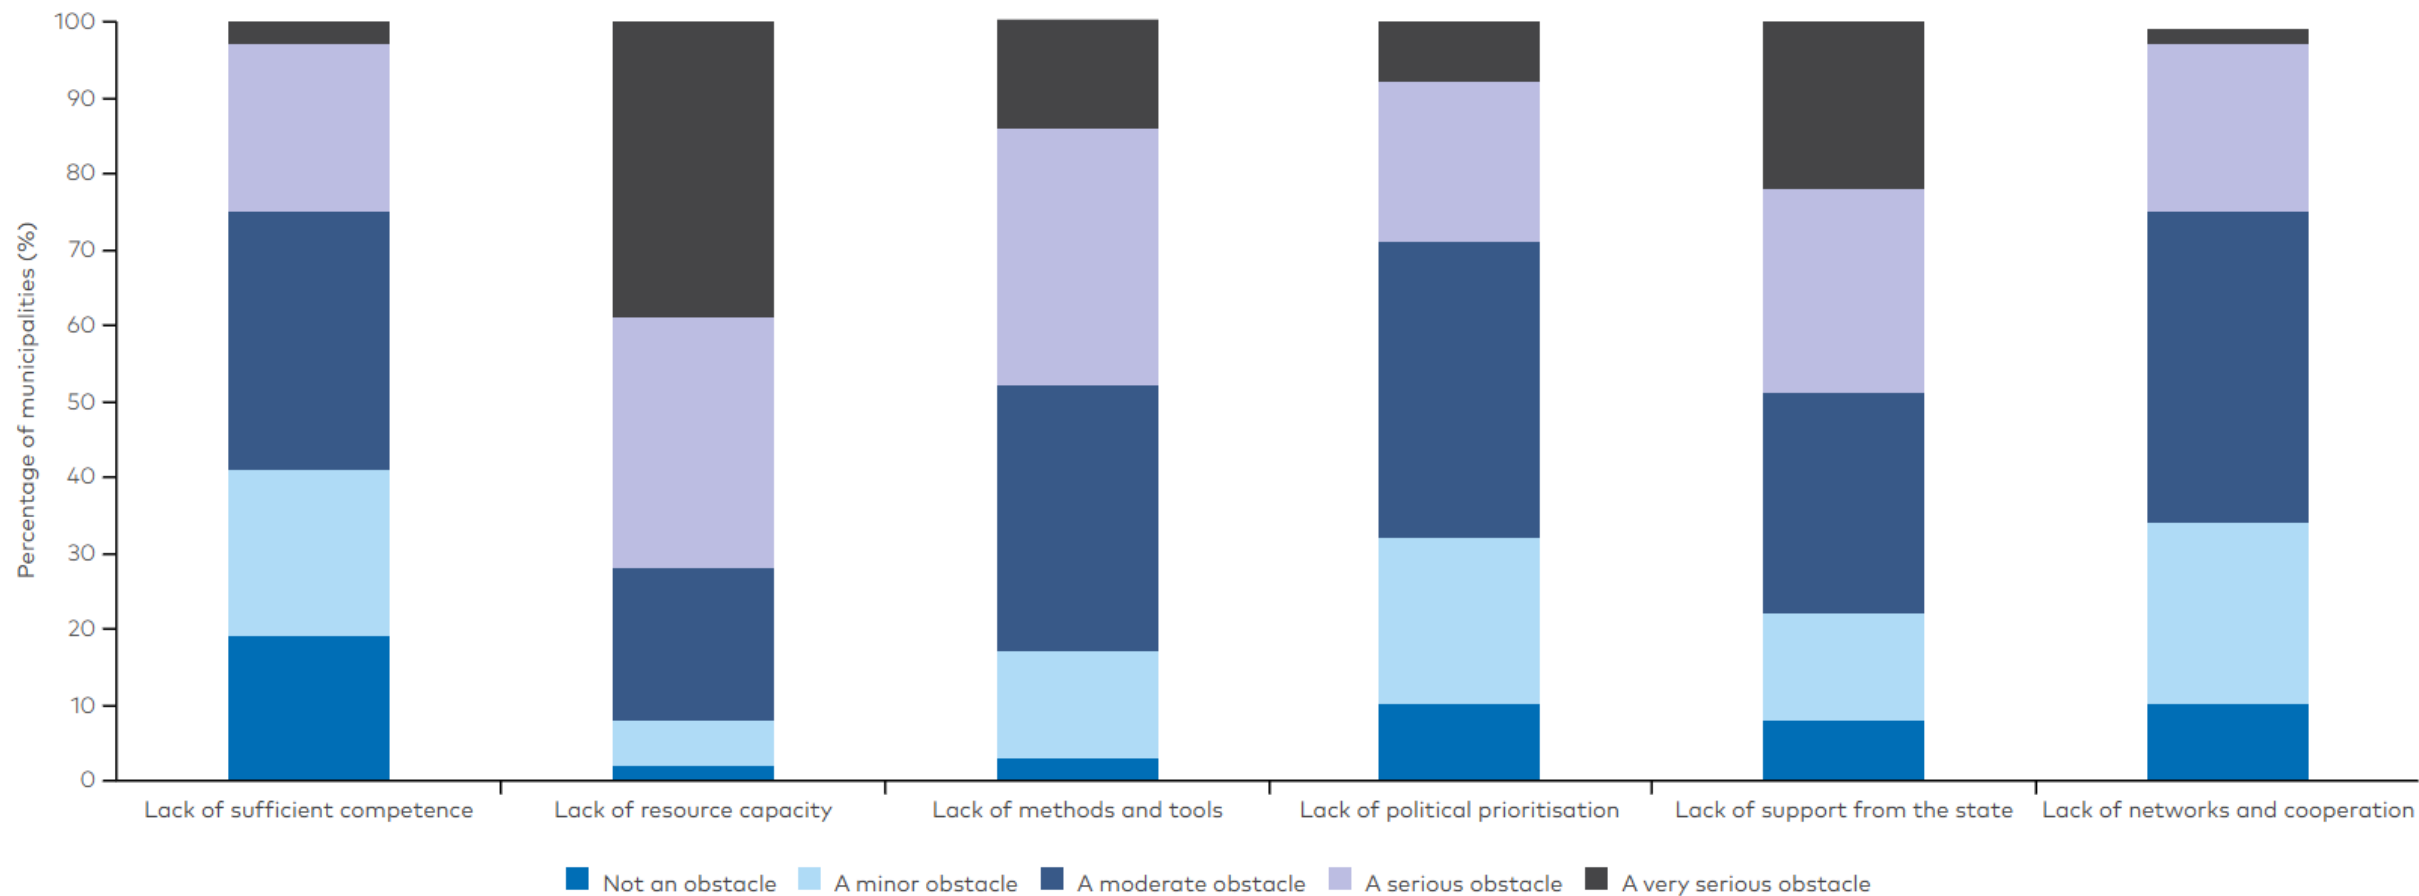

Does your authority measure progress in its work with the 2030 Agenda?

Norway: How often has the local authority carried out activities to involve the following actors on 2030 Agenda

Norway: How much of an obstacle do the following factors pose in your work with 2030 Agenda

Suksessfaktorer

1. Kapasitet til å jobbe med 2030-agendaen
2. Politisk prioritering av bærekraftsarbeidet
3. Forankring i kommunale styringsprosesser
4. Oversettelse av de globale målene til den enkelte lokale kontekst

Barrierer

1. Mangel på kapasitet og kompetanse til å jobbe med 2030-agendaen
2. Mangel på politisk prioritering, også nasjonalt
3. Mangel på statlig støtte
4. Svak tilgang til metoder og verktøy
