

Partnership Against Bullying

Joint promotion of an inclusive childhood and learning environment 2021–2025

All children and young people are entitled to a good kindergarten, recreational and school environment without bullying. This is the responsibility of adults. As a partner, we are committed to putting bullying on the agenda and helping to develop expertise and cooperation in order to counteract bullying in local communities.

- Children and young people have important experiences and knowledge. They have the right to be heard and to contribute to efforts to ensure that they have a good and safe childhood in their local communities
- It is up to the adults to ensure that children and young people have a good and safe childhood and they need to work together to develop a comprehensive and inclusive childhood and learning environment
- We are committed to a long-term partnership in which we implement measures within our own organisations and jointly in order to follow up on our commitment
